

Sprint - 1

Working With The Dataset (Loading The Dataset)

Date	25 October 2022
Team Id	PNT2022TMID26404
Project Name	Project – Global Sales Data Analytics

- View And Analyze The Data.
- First Upload the Data In IBM Cognos After Understanding Them. Cognos Most Supportive Tool For This Task, It Can Connect Wide Variety Of Data, Stored In Variety Of Places.
- The Might Be Stored In System Storage , Drive As Txt File, Csv File And Other Files , Or In BigData , Relational Or Cube Database On Server In Enterprise

1.Login Into Ibm Cognos

IBM Cognos Analytics with Watson

Search content

Hello. Welcome to Cognos Analytics with Watson.

You can get started right away by taking a look at our introduction video, product tour and Getting Started tab.

Watch video

Take a product tour

Quick launch

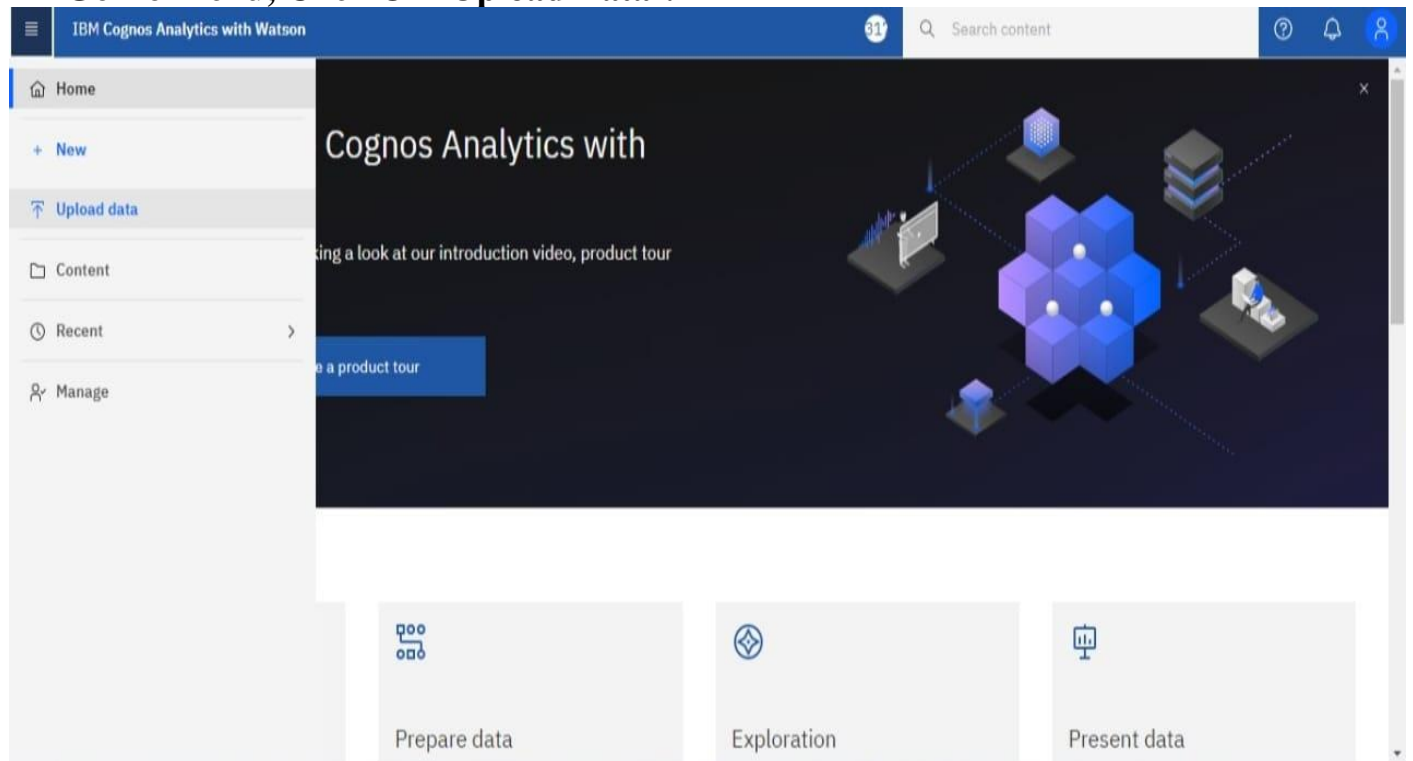

Upload data

Prepare data

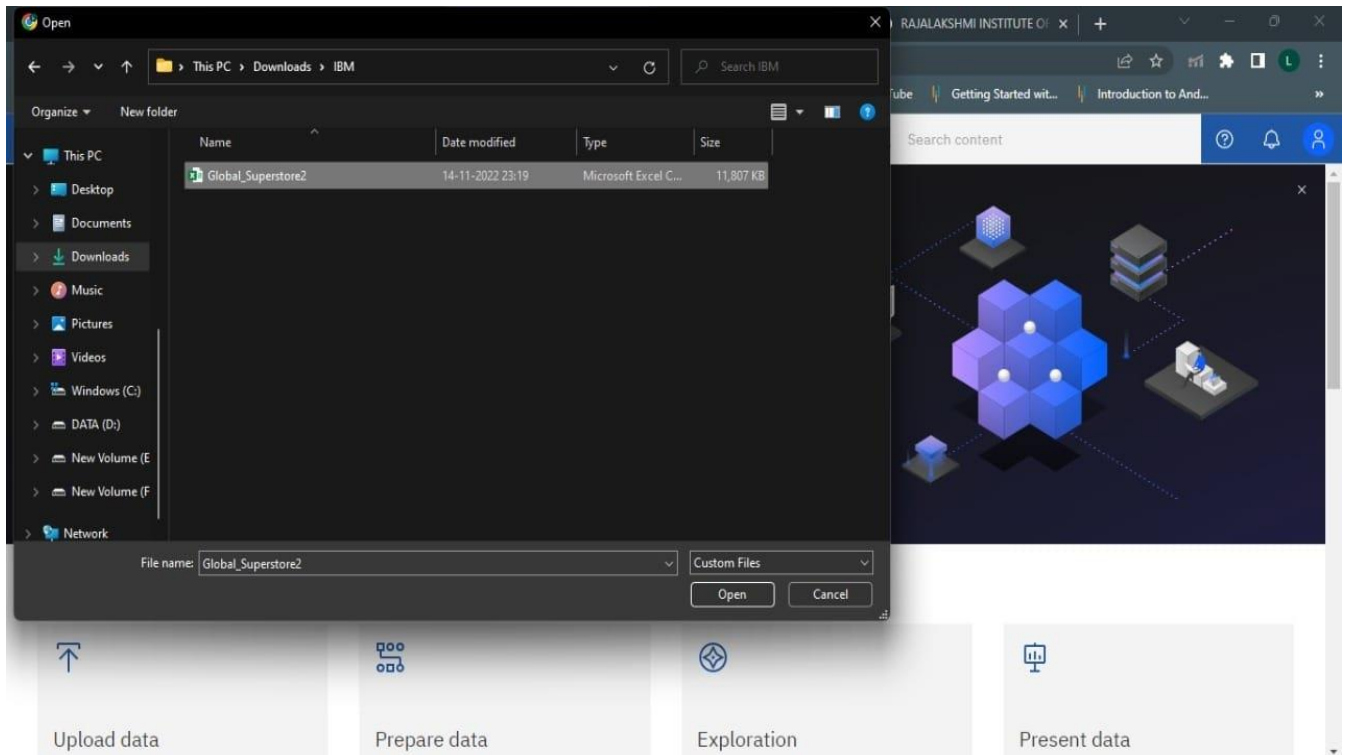

Exploration

Present data

2. Go To Menu, Click On 'Upload Data':

3. Select The Dataset:

4. Click On ‘Open’ and Wait Till The Dataset Is Uploaded:

The screenshot displays the IBM Cognos Analytics with Watson user interface. At the top, a blue header bar contains the text "IBM Cognos Analytics with Watson", a search bar with the placeholder "Search content", and user profile icons. Below the header, a light blue progress bar indicates the status "Analyzing Global_Superstore2.csv" with a "Cancel Details" link and a close button. The main content area has a dark blue background with the text "Hello. Welcome to Cognos Analytics with Watson." and a subtext "You can get started right away by taking a look at our introduction video, product tour and Getting Started tab." Two buttons, "Watch video" and "Take a product tour", are provided. To the right is a 3D isometric graphic of blue cubes and server racks. Below the main content, a "Quick launch" section features four tiles: "Upload data" (with an upward arrow icon), "Prepare data" (with a database icon), "Exploration" (with a magnifying glass icon), and "Present data" (with a presentation screen icon).
